Allstar

ALLSTAR's Quik-Code™ Radio Technology Gives You THE ADVANCED SOLUTION

NO DIP SWITCHES TO SET!

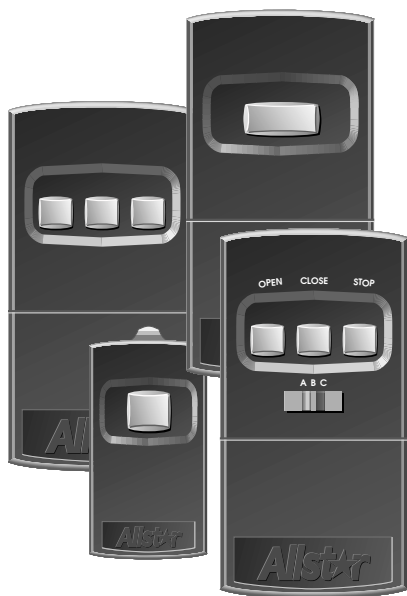

Use the MVP Quik-Code™ transmitter to take full advantage of the capabilities of the Quik-Code™ Receiver. No confusing dip switches. Easy coding using the three large buttons. Controls one, two or three doors or gates, allowing common or unique codes. Designed to maximize RF power and range.

Allstar's MVP Quik-Code™ Receiver is an entirely new concept in digital design which interfaces with our previous radio technology* while providing advanced features. Capable of accommodating an unlimited number of transmitters, along with an MVP Keypad. Programming is made "one button" simple without need of dip switches. It's also compatible with the built-in receivers of our MVP operators.

- Single Channel
- Two Channel
- Three Channel
- Single Channel Gate
- Three Channel Commercial OCS

Quik-Code™ receivers are available with continuous output (standard), pulsed output, dual output, or latching output.

Allstar's traditional line provides replacement transmitters for existing systems and also works flawlessly with the new Quik-Code™ Receivers to give you the industry's broadest line of application flexibility – opening up to 81 individually coded doors with a single transmitter.

NO DIP SWITCHES TO SET!

Allstar's Classic Transmitter provides both improved performance and the advantages of the Quik-Code™ platform. It's compatible with both MVP Quik-Code™ receivers, traditional Allstar receivers and similarly formatted brands.*

Wireless/Keyless Entry control made easy: easy to program, easy to use, no complicated set-up procedure. Compatible with the Quik-Code™ Receiver. Illuminated keypad. Won't lose its memory when the single 9-volt battery is replaced.

All Allstar and Challenger Radio Products are Homelink® Compatible.

*Includes Allstar, Allister, Pulsar, Heddolf®, GTO® and brands using this radio control format. If you have a specific radio control requirement, Allstar can configure a solution for you.

ALLSTAR's Industry-Leading Radio Control Line Gives You THE MOST OPTIONS

Challenger Radios

Get Allstar quality at an economical price. Compatible with popular Multi-Code® and Stanley® products. Choose from a range of units:

- Three Button Quik-Code™ Transmitter
- Standard or FC Gate Receivers
- One or Two Button Mini-Transmitters
- Challenger Wireless/Keyless Entry
